 - Refractometers

The following equipment will also be considered, please contact us in the first instance:

Biochemistry machine	ELISA tests for specific disease testing
Haematology machine	Serum Amyloid A monitors
Radiography machines/plates and processor	

NB: Transport of all donations must be considered – the cost of shipping and import licences must be balanced with the value of the items. Some items (not medicines) can be carried overseas by the UK team but it is usually preferred for them to be sent directly to a specific country rather than via the London office.

To discuss making a donation of veterinary equipment or medicines, please contact the Corporate Partnerships team on corporatepartnerships@spana.org or 020 7831 3999.
